

ABOUT THE INSTITUTE

PICT, the pioneer in field of Computer Engineering was established in the year 1983. The college offers Undergraduate & Postgraduate Programs in CE, E&TC and IT are approved by AICTE affiliated to Savitribai Phule Pune University. The Institute has introduced a scheme of innovative and comprehensive education which aims at excellence but not at the cost of the relevance. PICT has excelled in academics, co-curricular, extra-curricular activities. It aims at inculcating dignity of labor, encourages initiative and creative work, which is multidisciplinary, which prepares students for the increasingly techno-oriented society of tomorrow and which will generate in the alumni the basic values of humanism, secularism and democracy. and enterprising skills among the students and faculty.

ABOUT THE DEPARTMENT

Department of Information Technology imparts students the knowledge to understand and engage with the technological society in which they live and the skills that will lead to successful careers. A team of 27 Teaching and 12 Technical Staff members under the leadership of Dr. Bagade A. M. unanimously harnesses its potential in all aspects to take the department to greater heights. The Bachelor of Engineering (B.E) Programme in Information Technology commenced from the academic year 2001-2002 with an intake capacity of 60 students. The current intake capacity is 180. The first batch of M.E. was inducted in September 2011 with an intake capacity of 18.

ABOUT THE CONFERENCE

A National Conference on "Emerging Trends in Artificial Intelligence and Big data (ETAB - 2020)" is being organized by the Department of Information Technology, Pune Institute of Computer Technology, Pune. The conference aims at creating a forum for the Students, Academicians, Researchers, Developers and Practitioners spread across the nation to discuss and present various research experiences in the field of Artificial Intelligence and Big data. Furthermore, the major objective of the conference is to provide a conclave where company and institutional representatives share the current state of adoption of Big Data and AI technologies in their organizations, future trajectories and their applications in day to day life.
